

## USE OF RAPESEED OIL FOR CALVES' FEEDING

H. Stankevičius, A. Žemaitienė

**Summary.** The potential of using rapeseed oil in the manufacture of dry milk substitute is discussed in the paper taking into account the physicochemical properties of the oil. An optimum amount of rapeseed oil in the fat mixture was determined. Quality indices of the reconstituted substitute are analysed. The results of the test feeding conducted on 15-day old calves were evaluated.

**Keywords:** rapeseed oil, dry milk substitute, weight of calves.
